SUMMARY

I consider myself a responsible and orderly person. I'm looking forward for my first work experience. Proficient in React.js for creating dynamic and responsive front-end interfaces, and Node.js with Express for robust backend development. Skilled in database management with both SQL and MongoDB. Well-versed in developing responsive websites with a focus on user experience. Eager to bring my expertise to a forward-thinking team and tackle new challenges in Full Stack Development.

PROJECTS

- Project Title: **My PortFolio**

Description: I designed and developed a fully functional portfolio website from scratch using HTML, CSS, and JavaScript, showcasing my proficiency in front-end web development and user interface design.

GitHub Repository: [My Portfolio](#)

- Project Title: **Login Page**

Description: Creating a login page with Firebase using React involves combining the power of React for building user interfaces with Firebase for authentication.

GitHub Repository: [Login Page](#)

- Project Title: **Smart Clothings E-Commerce**

Description: I developed an E-Commerce website for a Trending Dress Shop, Emphasizing a user-friendly design. The platform enables customers to easily browse dresses and make purchases effortlessly. The website includes practical inventory management, ensuring a smooth and enjoyable online shopping experience for dress enthusiasts.
